Note from the Business Development Team

On behalf of The Society of Hospital Medicine, we want to extend our gratitude for your continued partnership and support!

HM20 Virtual was a digital steppingstone of success for our organization. Our Leadership Academy hosted its first virtual seminar for an engaged and excited group of hospitalists eager to discuss the challenges that leaders are currently facing. Now, we are focused on launching SHM Converge, our first fully virtual Annual Conference experience. Currently, unique engagement and interaction experiences are being created for brand exposure, networking receptions will be making an appearance in our virtual space. Product Theaters & Demo Spaces will be highlighted, and more of our attendee/exhibitor favorites are in the final stages

With your partnership, we are looking to rise to the challenge of making SHM Converge the new virtual experience worth attending. We welcome you to join us; you will not want to miss this.

SHM Business Development Team,

Theresa Jones, Director of Business Development Nyla Nicholson, Meetings and Exhibits Project Manager
